

HEARING LOOP TRAINING

- DESIGN
- INSTALLATION
- DEMONSTRATION
- MARKETING
- CERTIFICATION

HEARING WELLNESS ORGANIZATION'S Audio Frequency Induction Loop Training is a FREE three day intensive hands on educational program. Students will graduate with the knowledge and support to design and install IEC compliant hearing loops.

For class schedules and hospitality arrangements check our website at www.hearingwell.org.

Call (888) 224-4988 to make a reservation.

HEARING WELLNESS ORGANIZATION

6653 Grand Haven Road
Norton Shores, MI 49456

CURRICULUM

1. Hearing Loss and Assistive Listening Devices
2. Assistive Listening Device Comparison
3. Audio Frequency Induction Loop History
4. Marketing - Reasons to "Get In The LOOP"
5. Audio Frequency Induction Loop Technology
 - Voltage amplifiers
 - Constant current design
 - Class D technology
 - Loop driver side by side comparison
6. Design Considerations
 - IEC requirements
 - Background noise (EMI)
 - Metal interference
 - Architectural challenges
 - Number of conductors
 - Antenna selection
7. Wire Installation
 - Carpet installation
 - Concrete/Tile installation
 - Other options
8. Hands on Demonstration
 - Wired loop
 - Counter loop
 - Soldering and foil
9. Advanced Techniques
 - Noise cancelling loop configuration
 - High metal content buildings and spill control
10. Quote the Loop
11. Sound Systems
12. Troubleshooting
